

## Instructor Programs

The most comprehensive instructor programs in the industry - for those seeking ongoing professional development or to progress into training. We offer certification across the entire force continuum.

### Defensive Tactics Instructor

Covers instructor certifications for:

- Empty Hand Defence
- Restraint & Control
- Handcuffs
- Batons

### Firearms Instructor

Covers instructor certifications for:

- Revolver
- Semi-automatic

### Reality Based Simulation Training

A unique and innovative certification for reality based force-on-force training across the entire force response continuum. It covers simulation design, safety guidelines, best practice by leading RBT systems around the world and extensive practical training in RBT simulations.

Instructor programs include:

- Detailed Full Color Manual
- Instructor Resource CD
- Administrative Documentation

Candidates receive a *briefing bulletin* that details the course content, format and requirements for successful completion, and an *application form*. All successful candidates are certified as an *independent instructor*.

## Trainer Profile

**Richard Kay** is the founder of Modern Combatives®, a provider of operational safety strategies to the public safety community, and director of Dynamic Training®, an accredited provider of Vocational Education & Training.

He has been studying martial arts and combative systems since 1984, is a certified defensive tactics and firearms instructor trainer, and has instructor certifications with ASP, PPCT, SIG SAUER. He has studied Systema (Russian Special Forces), Cloquba Hajutsu (US Law Enforcement Combatives), Krav Maga (Israeli Defence Forces) and SAFTA (US Special Operations), and is a certified Simunition Safety Supervisor, Force-on-Force Simulation Safety Instructor, Systema Instructor, and 3<sup>rd</sup> degree black belt in Cloquba Hajutsu.

His martial disciplines include karate, aikido, ba gua, hsing-i, tai chi, bojutsu, iaijutsu and Filipino knife combat. He is a founding member of the Goshu Karate-do Yonshin-Kai, and holds 5<sup>th</sup> dan black belt certifications in both Goju-Kensha Karate (Japan) and Goju-Ryu Kakurinkan Karate (Australia). In 2007 he received an official *Shidoi* teaching license and *Bubishi* masters text in Japan from Ohtsuka Tadahiko (9<sup>th</sup> dan Hanshi Goju-Kensha Karate-do Renmai), and official registration with the Japan Goju-Ryu Federation.

Rich has extensive experience in private security operations and spent time in the Australian military as an infantry soldier. In 2001 he attained the prestigious ASP Trainer Certification for law enforcement use of force training, and in 2011 was elected to the ASP Board of Examiners. He travels overseas regularly to further his professional development on an international scale, where he liaises with members from public safety agencies from America, Europe and Australasia. Internationally to date, he has instructed in America, Belgium, Portugal and Hong Kong, and regularly conducts officer and instructor programs in Australia for public safety agencies.

In his role as a specialist personal safety & security consultant, Rich has designed and implemented aggression management programs for the health and community services, and personal safety and security courses for civilians. He has consulted to organisations regarding personal safety and security for staff in high risk situations, and has provided expert opinion for investigations and legal cases involving operational use of force and training.

He maintains close links with regulatory bodies for the development of public safety policy, regulations and training, and is a regular contributor to publications of articles on operational safety, personal security, workplace conflict, aggression management, tactical use of force and training methodologies. He is a member of The International Law Enforcement Educators & Trainers Association.

# Operational Safety

Professional officers operate with *confidence*, which is a product of training and experience. When situations exceed ability, officers can be in jeopardy, physically and legally. Safety is about being prepared for any situation. Our programs empower officers to survive the reality of the operational environment.

Tactical training must fulfill 3 criteria - it must be *simple*, *effective* and *defensible*. Our programs are designed around a singular concept - '*total officer safety*' - and combine what officers '*must do*' with what they actually '*will do*' under the stress of actual confrontation.

These courses will benefit ALL officers, regardless of experience, and progressive organisations serious about the safety and professionalism of officers. Content can be *customised* to suit specific operational requirements, and organisations can request specific 'closed' courses for their staff only. We can also assist with annual re-certifications and provide regular opportunities to further develop officer survival skills in a positive environment with the guidance of qualified, experienced and professional instructors.

Train with confidence. Our programs are designed for Australian operational conditions, using field-proven strategies benchmarked against current international best practice standards for operational use of force, and are fully approved by Licensing Services Division, Victoria Police. Programs include extensive full colour manuals with clear explanations and visuals, providing a valuable reference for officers and organisations.

Be *proactive* about operational safety...enquire today!

# Empty Hand Defence

## Protect Self & Others

Covers the application of basic defensive techniques in security risk situations. It requires the ability to use basic defensive techniques to protect self and others within applicable legislative requirements.

(Code: CPPSEC2017A)

# Restraint & Control

## Control Persons with Empty Hands

Covers using appropriate empty hand techniques to minimise the risk to self and others. It requires the ability to use force in situations where there is a risk to safety, within applicable legislative requirements, and knowledge of arrest procedures.

(Code: CPPSEC3013A)

# Handcuffs

## Restrain Persons Using Handcuffs

Covers using handcuffs to restrain a person. It requires the ability to make sound judgments on the necessity of using handcuffs, restrictions that apply to use, and knowledge of the correct procedures for safe and secure application.

(Code: CPPSEC3015A)

# Batons

## Control Persons Using Baton

Covers the control of persons with a baton. It requires the ability to present batons confidently, to use batons to defend self or another, to direct persons within lawful parameters, and knowledge of behaviour in conflict situations where force is likely to be used.

(Code: CPPSEC3014A)

# Firearms

## Control Security Risk Situations Using Firearms

Covers identifying when to use a firearm to respond to a life-threatening situation. It requires the ability to analyse risk factors, to maintain and store firearms and ammunition in accordance with legislative requirements, and knowledge of use of force guidelines and incident reporting procedures.

(Code: CPPSEC3008A)

# Simulation Training

The most effective training method available, enabling officers to proactively participate in *reality training*, safely! Simulation training can be adapted to cover most operational scenarios. Enquire today and discover how Simulation training will benefit your organization.

*Real time, real threat...there is no substitute for total realism!*
